## TETHERLOK STAINLESS STEEL RAINSTOPPER™

**Unwanted rainwater adds to the cost of sewage treatment. Eliminate rainwater from your system with Rainstopper™ manhole insert**

Estimates on Rainwater treatment cost per manhole

MINIMUM - \$50.00 per year per manhole\*

MAXIMUM COST - \$500.00 per year per manhole\*

\*Figures based on average yearly rainfall in the SW region and selected engineers' estimate on sewage treatment cost.

On an average rainy day a manhole will allow 2,000 to 9,000 gallons of inflow to the treatment system.

### FEATURES:

- ✓ Anti-theft tether
- ✓ Easily installed by one person
- ✓ Made from corrosion resistant high strength Stainless Steel – 304 or 316 gauge
- ✓ Weighs 10 lbs.
- ✓ Sewer gas will be vented with a non-mechanical device
- ✓ Less maintenance - no moving parts
- ✓ Straight side designed to fit DOT castings

### BENEFITS:

- ✓ Stops flow of rainwater into sewage systems.
- ✓ Controls manhole odors
- ✓ Keeps dirt out of system
- ✓ Helps prevent manhole rattling and flipping due to street traffic
- ✓ Tether promotes safety - insures replacement
- ✓ **LIFETIME WARRANTY**  
Full replacement is guaranteed, should this product fail.

## HOW TETHERLOK WORKS
